

AGS GROUND STAKE

The Auroralight **AGS Ground Stake** is part of the most comprehensive mounting system available. It is molded from solid black ABS, adorned and reinforced with a solid brass cap, a touchstone of the quality that represents Auroralight. Featuring our Aurora Mount System (AMS), the AGS allows maximum aim-ability with 360° of fixture rotation; the AGS is the most attractive and feature-rich ground stake on the market today.
