FR-AMS-S-1/2

FR-1/2-S-1/2

The **FR Fixed Riser**, part of a complete line of risers from Auroralight, offers designers and installers a high quality, economical solution for maturing shrubs or thick ground covers that are overtaking light fixtures and hindering performance. It is a quick solution for an existing problem or a proactive application allowing for future growth in the landscape. The unique design of the FR provides for easy removal of the fixture adapter. There is ample room inside for quick and easy wire-splicing without twisted wires. Specify STANDARD: sizes from 4" to 18" or consult our factory for custom lengths.
