HWL11-XO LIGHTHAUS

The compact HWL11-XO Lighthaus delivers brilliant performance. Featuring significantly increased aiming capability allowing a full 45° of tilt onto the horizon with 360° of rotation. It has the ability to regress the light source 2" below the lens for increased glare control and visual comfort. The HWL11-XO is field convertible to our high performance LM11 "Designer Module" should the need arise.

Features include:

- Variety of MR11 Lamp Options
- 2700K & 3000K (90 CRI)
- 3 Faceplate Options
- Drive-over Rated up to 6,000 lbs.
- Solid Copper Body with Brass Faceplate and Stainless Steel Hardware
- Compatible with 2, 4 or 6 Watts "Designer LED Module"
