

## EXTR EXTENDABLE RISER

The **EXTR Extendable Riser**, part of a complete line of risers from Auroralight, takes quality and innovation to new heights! The EXTR equips designers and installers with a quality solution for maturing shrubs or thick ground covers that are overtaking light fixtures and hindering performance. It is an adjustable solution for an existing problem or a proactive application allowing for future growth in the landscape or seasonal changes like snow. Meticulously machined from solid brass and paired with a Copper tube, the EXTR features silicone O-rings and a robust clutch assembly allowing for full extension of the fixture's original height for years to come. Specify **STANDARD**: sizes of 5"x10" to 18"x36" or consult our factory for custom lengths.
